

Reports call history when the handset is turned off or out of range—and when you are on the line

# Missed Call Notification Service

Application  
Not Required

Monthly Charge  
Free

\*For more details, refer to "Charges" on p. 52.

This function provides a record of missed incoming calls received while the handset was turned off, out of range, or being used for another call. This record is provided via the Short Message Service (SMS) once the handset is turned on again, is once more within range, or not being used for another call.

\*As of October 3, 2011, the "Turned Off or Out of Range Notification Call Service" has been renamed the "Missed Call Notification Service."

## « Service Features »

You can check a caller's phone number and incoming call date on the SMS Caller ID Screen.

Reports are made while this feature is activated, even when the SMS Refusal setting (all SMS rejected/ SMS without Caller ID rejected) is active.

### [With smartphones (only models running AndroidOS)]

Use the following procedure to make the settings. \*Procedures may differ depending on handset.

● From the Handset Screen

Select "Settings." → Select "Call settings." → Select "Network service." → Select "Call notification."

### About the Short Message Service (SMS) Caller ID Screen Display

If registered in the Phonebook, the registered name is indicated.\*1  
If not registered in the Phonebook, the caller's number is indicated as is.

\*1 On certain models, the caller's number is shown.

Do Not Display: Transmissions carried as voice calls  
Videophone: Transmissions received as Videophone calls

\*On some models, SMS message titles such as "Missed call notification" or "Noticecall voicemail" appear on the screen.

● Actual screen may be different.

# Activating the Call Notification

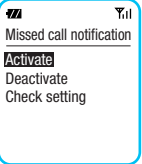

- At the time of subscription, the Incoming Call Report function is set to notify you of all incoming calls; however, call reports are not made while the Call Forwarding Service is activated.
- Reports are made while this feature is activated, even when the SMS Refusal setting (all SMS rejected/ SMS without Caller ID rejected) is active.

\*Reports may not be made immediately in some cases.  
 \*Communications charges do not apply for a notification made with this function.

## From the Handset Screen

● These settings cannot be made from the handset screen on models prior to the 9011 series. Please refer to the sections on Using the Dial Pad.

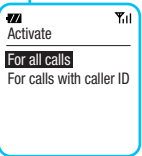

**1**

Display the "Missed call notification" menu, and select "Activate."

\*On some models, this item is on the "Voice mail" menu.

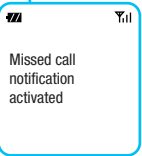

**2**

The display switches to the "Activate" screen.

Select "For all calls" or "For calls with caller ID." Then the confirmation screen will appear, select "YES."

**3**

The results of your setting appear.

If the setting is successful, "Missed call notification activated" will appear. This completes the setting.

► See p. 107 for service codes.

## Using the Dial Pad

**1** Press **\*2001**

"The service to inform you of incoming calls while you are not reachable is..."

**2** Press **1**

"Caller number cannot be presented when the call is set by the caller..."

**3** **1** (All incoming calls reported)  
**0** (Only incoming calls with caller's number reported)

Press one of the numbers to set the calls you want to be included in the report.

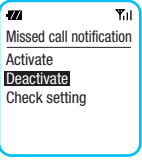

"According to the setting you have now selected, the arrival of all incoming calls will be notified regardless of availability of Caller ID. If you want to..."

**4** Press **#**  to finish.

# Deactivating the Call Notification

## From the Handset Screen

**1**

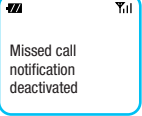

Display the "Missed call notification" menu, and select "Deactivate."

When the confirmation screen will appear, select "YES."

\*On some models, this item is on the "Voice mail" menu.

**2**

The results of your setting appear.

If the setting is successful, "Missed call notification deactivated" will appear. This completes the setting.

► See p. 107 for service codes.

## Using the Dial Pad

**1** Press **\*2001**

"The service to inform you of incoming calls while you are not reachable is..."

**2** Press **0**

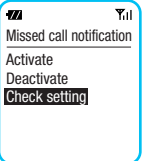

"The service is deactivated."

**3** Press  to finish.

# Checking the Missed Call Notification Service Status

## From the Handset Screen

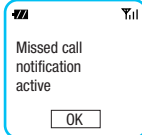

**1**

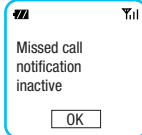

Display the "Missed call notification" menu, and select "Check setting."

\*On some models, this item is on the "Voice mail" menu.

**2**

**2**

The Setting Confirmation screen appears.

Service is Activated      Service is Deactivated

► See p. 107 for service codes.

## Charges

No Application Required
