

**DoCoMo has grown rapidly since its inception in 1991 by using its technological edge to become Japan's preeminent total wireless telecommunications service provider. Today, DoCoMo stands on the verge of a new era: mobile multimedia. By establishing leadership in this emerging field, DoCoMo will ride the crest of surging global demand for data communications. This is opening the way to a new mobile frontier and many more years of strong growth.**

### Forward Looking Statements

Statements made in this annual report with respect to DoCoMo's plans, strategies, beliefs, financial forecasts and other statements that are not historical facts are forward looking statements about the future performance of DoCoMo which are based on management's assumptions and beliefs in light of the information currently available to management and involve risks and uncertainties. Potential risks and uncertainties include, without limitation, DoCoMo's ability to continue

to attract subscribers to its services; DoCoMo's ability to add capacity to its existing digital networks or add capacity in the future through successful development and introduction of its W-CDMA network; and DoCoMo's ability to continue to win acceptance of its products and services, which are offered in highly competitive markets characterized by continual new product introductions, rapid developments in technology, and subjective and changing consumer preferences.
