

XR World

NTT QONOO, INC.

XR World is a browser-based metaverse where viewers enjoy Japanese content spanning genres including music, anime, "Tokusatsu" special effects films and more.

XR World is a virtual space where you find what inspires you, then put yourself in a space with others who share the same likes, and even organize private events to freely interact with like-minded people using chat and emotes.

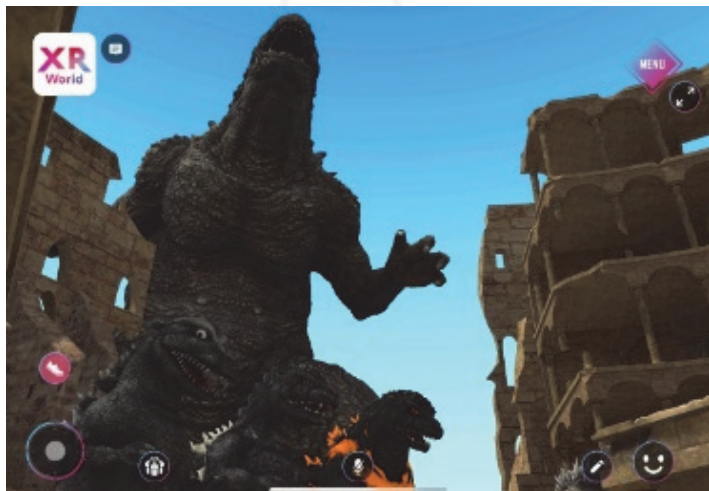

Exciting Content

©岸本斉史 スコット/集英社・テレビ東京・びえろ
©NARUTO THE GALLERY実行委員会

XR World has introduced a rich variety of exclusive content, including through a collaboration that allows people to transform into the main characters of the popular anime NARUTO to experience the excitement of performing iconic ninja moves.

First-hand Experience

TM & © TOHO CO., LTD.

Our exhibition will offer you to view Godzilla from a close-up life-size perspective, or even place yourself in the film as an avatar! XR World provides unique metaverse experiences for enjoying the "Tokusatsu" special effects films world as if you were really there.

XR World will continue to evolve within the metaverse, contributing to the industry while providing everyday people with an entirely new culture of communication that is unique to virtual space.
