Forward-Looking Statements

The forecasts presented herein are forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Act of 1934. Statements made in this presentation with respect to DoCoMo's plans, objectives, projected financials, operational figures, beliefs and other statements that are not historical facts are forward-looking statements about the future performance of DoCoMo which are based on management's expectations, assumptions, estimates, projections and beliefs in light of information currently available to it. These forward-looking statements, such as statements regarding the introduction of new products and services or termination or suspension of existing services, financial and operational forecasts, dividend payments, the growth of the Japanese cellular market and the ubiquitous services market, the growth of data usage, the growth of DoCoMo's cellular phone business, the migration of users to DoCoMo's 3G services and associated improvements in 3G services, improvements in 3G and 2G coverage area, the potential growth in the Japanese credit card business and DoCoMo's credit business, and management's goals are subject to various risks and uncertainties that could cause actual results to be materially different from and worse than as described in the forward-looking statements. Potential risks and uncertainties include, without limitation, as competition in the market is expected to become more fierce due to changes in the business environment caused by the introduction of mobile number portability and new market entrants, competition from other cellular service providers or other technologies could limit our acquisition of new subscribers, retention of existing subscribers and average revenue per unit (ARPU), or may lead to an increase in our costs and expenses: the new services and usage patterns introduced by our corporate group may not develop as planned, which could limit our growth: the introduction or change of various laws or regulations or the application of such laws and regulations to our corporate group may adversely affect our financial condition and results of operations: limitations in the amount of frequency spectrum or facilities made available to us could negatively affect our ability to maintain and improve our service quality and level of customer satisfaction: the W-CDMA technology that we use for our 3G system and/or mobile multimedia services may not be introduced by other overseas operators, which could limit our ability to offer international services to our subscribers: our domestic and international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect: as electronic payment capability and many other new features are built into our cellular phones, and services of parties other than those belonging to our corporate group are provided through our cellular handsets, potential problems resulting from malfunctions, defects, or missing of handsets or imperfection of services provided by such other parties may arise, which could have an adverse effect on our financial condition and results of operations: social problems that could be caused by misuse or misunderstanding of our products and services may adversely affect our credibility or corporate image: inadequate handling of subscriber information by our corporate group or contractors may adversely affect our credibility or corporate image: owners of intellectual property rights that are essential for our business execution may not grant us the right to license or otherwise use such intellectual property rights on acceptable terms or at all, which may limit our ability to offer certain technologies, products and/or services, and we may also be held liable for damage compensation if we infringe the intellectual property rights of others: earthquakes, power shortages, malfunctioning of equipment, and software bugs, computer viruses, cyber attacks, hacking, unauthorized access and other problems could cause system failures in the networks required for the provision of service, disrupting our ability to offer services to our subscribers and may adversely affect our credibility or corporate image: concerns about wireless telecommunications health risks may adversely affect our financial condition and results of operations: or our parent, NTT, could exercise influence that may not be in the interests of our other shareholders.

Further information about the factors that could affect the company's results is included in "Item 3.D: Risk Factors" of its annual report on Form 20-F filed with the U.S. Securities and Exchange Commission on June 27, 2006, which is available in the investor relations section of the company's web page at www.nttdocomo.com and also at the SEC's web site at www.sec.gov.
Successful Reduction of Churn Rate

Successfully maintained low churn rate at **0.64%** in FY2006/1Q

- Full year churn rate: 1.21%
- Full year churn rate: 1.01%
- Full year churn rate: 0.77%
- Full year churn rate: 0.64%

**Constantly reduced churn rate (wide acceptance of various retention measures)**

- Inclusive of Communication Module Service subscribers

---

IR Presentation 2/37
DoCoMo was **No.1** in market share of net additions in FY2006/1Q, acquiring **49.1%** of total.

*Source of data used in calculation: Telecommunications Carriers Association (TCA)*
Subscriber Migration to FOMA

- FOMA subscribers topped 50% of total DoCoMo subs in June 06
- Migration to FOMA contributed to boosting data ARPU.

(10,000 subscribers)

- Inclusive of Communication Module Service subscribers

Numbers in parentheses indicate the percentage of FOMA subscribers to total cellular subscribers

FOMA subs projected to reach approx. 2/3 of total

FOMA subs topped 50% of total (Jun. 18, 2006)
Cellular (FOMA+mova) MOU

MOU for FY2006/1Q was 145 minutes (Down -2.7% year-on-year)

For an explanation of MOU, see Slide 36 of this document, "Definition and Calculation Methods of MOU and ARPU".
ARPU for FY2006/1Q was 6,900 yen (Down 0.6% year-on-year)

Impact from recognizing as revenues the portion of "Nikagetsu Kurikoshi" (2-month carry over) allowances that are projected to expire: 200 yen

Inclusive of the impact of recognizing as revenues the "Nikagetsu Kurikoshi" allowances that are projected to expire (200 yen)
Three Main Pillars of Business Operations

Run business centering on the three main pillars below, with the aim to reinforce competitiveness in view of Mobile Number Portability (MNP) and to achieve sustainable growth for the future.

- Strengthen core business even further
- Create new revenue sources
- Cost reduction
Enriched discount services led to enhanced price competitiveness (Powerful customer retention effects)

**Family Discount**
- 25% discount on basic monthly charge for both main/sub circuits
- Discount applicable to family members living apart (Discounts can be applied to separate phone bills/separate addresses)

**Two-Month CarryOver**
- Unused free communication allowances are automatically carried over
  - Allowances can be used for both voice/packet communications
  - Can be shared with family members

**Up to 50% discount on basic monthly charges by combining the new “Ichinen Discount” with “Family Discount”**

**Ichinen Discount**
- Up to 25% discount on basic monthly charge, depending on length of subscription

**pake-hodai Packet Flat-Rate Service**
- Flat-rate service for unlimited use of i-mode/e-mail
  - Can be combined with any FOMA “new billing plans”
• The growth of “pake-hodai” flat-rate subscribers accelerated after lifting the subscription restrictions.

As of Jun. 30, 2006 6.91 million subs (26% of total FOMA subs)
Strengthen Core Business Even Further (2) Products

Enriched products lineup, e.g., “902iS” series equipped with more powerful credit payment/music capabilities, and “702iS” series featuring unique and stylish designs, etc.

902iS series

High-spec models

- Preinstalled with DGMX-applications
- Enhanced music capabilities
- Powerful security features (Biometric authentication “Omakase Lock”, etc.)

Concept models

- “Kid’s PHONE” (SA800i) designed for child’s use and safety protection
- Int’l roaming-enabled “SIMPURE” series
- One-segment broadcast-enabled model (P901iTV)

702iS series

Unique and stylish designs

new 7 series debut!

Mobile devices for businesses

Mobile solutions

“hTc Z” (T/HTC) and “Blackberry” (RIM)
Strengthen Core Business Even Further (3) Music-related Services

Rich portfolio of music-related services, e.g., “Chaku-Uta Full”, “music player” and “Music Channel”, etc.

**Chaku-Uta Full®**

*Downloading of full music tracks*

“avex Chaku-Uta Full mu-mo”
“Reco-choku Full” (Label Mobile, Inc.)

*Compatible Models:

- P902iS (Photo)
- N902iX HIGH-SPEED
- P702iD

*More models to be added in the future*

**Music Player**

*Downloading of music of choice from a rich variety of stores*

- Long-hour playback
- Large external memory
- Compatible with a wide array of music stores

(Japan’s first WMA®-enabled phone (F902iS))

The new series are compatible with 17 sites of music stores ★

**Music Channel**

*A new service leveraging higher data speeds*

- Automatic download during night
- Long-hour playback
- High quality sound
- Wide variety of music programs

**F902iS**

No. of sites compatible with WMA and SD Audio (As of July 24, 2006)

© LABEL MOBILE INC.

---

*Chaku-Uta Full® is a registered trademark of Sony Computer Entertainment, Inc.*

*Windows Media® is a registered trademark of Microsoft Corporation in the United States and other countries.*
### Network

- **Transmission speed**
  - 3.6Mbps (downlink)
  - Possible to upgrade to max. 14Mbps

- **POP coverage (Forecast)**
  - Mar. 31, 2007: 70%
  - Mar. 31, 2008: over 90%

- **Launch**: Aug 31, 2006

### Handsets

- **Initially**
  - Plan to offer 2 models
    - N902iX HIGH-SPEED / M2501 HIGH-SPEED
      - (Released Aug 31, 2006)
      - (Plan to release)

- **Future plans**
  - Add 2 more models around spring/2007
  - Embed HSPDA as a standard feature in future 90X series phones

### Services

- **Provide services that leverage HSDPA’s higher download speeds**

  - **Services uniquely available on mobile phones**
    - “Music Channel”
    - Large-capacity i-motion, etc.

  - **Broadband content originally developed for PCs (planned)**
    - Animation
    - Short films
    - Music videos, etc.
Improve search function on i-menu/independent sites by enabling keyword search, with the aim to reinforce DoCoMo’s competitiveness and expand data revenues.

**Improve ease of i-mode’s search function** (Planned for launch in Oct. 2006)

- Input keyword on top page, and search
- Search results are shown

### i Menu Site Search

- Improve ease of use of iMenu’s rich official sites
- DoCoMo’s proprietary search function

#### Genre narrow-down function

#### Intra-site search function

### Tie-ups for General Site Search

- Tie up with a wide range of search engines based on an open model to improve users’ convenience

*Presented in Japanese kana order*
Installed base stations and systems at the fastest pace in our history, to build up competitiveness prior to MNP ⇒ No. of base stations as of Mar. 31, 2007 expected to increase to 1.5 times the number as of Mar. 31, 2006.

FOMA Outdoor/Indoor Coverage

- Expand FOMA coverage to a level superior to mova’s by 2006/fall
  - Comprehensive coverage in buildings/underground areas
  - Plan to cover all JR stations and highway service areas

- Area quality improvement catered to customer requests
  ⇒ “We value your comments on FOMA quality” campaign*, etc.
- Proactive PR campaigns
  ⇒ “We’ll increase FOMA antennas declaration”, etc.

* Examples of measures implemented in Kanto-Koshinetsu region
Japan’s credit card market offers great potential for further expansion. If credit card usage rises to the US level of 24% of total consumer spending, Japan’s credit card market expands by +Approx. 45 trillion yen, reaching 72 trillion yen.

(Ref.) Size of small payment market in Japan:
Approx. 57 trillion yen
(Market size of small amount payments of 3,000 yen or less)

Source: NTT DoCoMo press release material, "DoCoMo launches Mobile Credit Services" (Apr. 4, 2006)

Targets of Credit Card Business

- New service deployment (Promotion, advertisement, etc)
- Increase uptake of i-mode FeliCa-enabled phones
- Increase installation of payment terminals

Credit Card Business

iD
No. of installed payment terminals as of Mar. 31, 2007
150,000 (forecast)

DCMX
Near-term goal: Acquire 10 million mobile credit users

Synergies to Core Business

- Reinforce competitiveness (customer retention, etc)
- Prolong handset replacement cycle
Create New Revenue Sources (1) Credit Card Business-2

DCMX mini (Launched Apr. 28, 2006)
- Easy application from i-mode (3 steps)
- Shopping credit line: Up to ¥10,000/month
- Pay together with phone bill
- Usage log can be confirmed via i-mode

Provided only on mobile phones (iD)

DCMX (Started card issuance in late June 2006)
- Higher credit lines (from ¥200,000)
- Cashing function also available
- Linked with “DoCoMo Point” program

Provided on mobile phones (iD) as well as Plastic cards

Credit service made a favorable start

No. of DCMX subscribers 520,000 (As of Jul. 31, 2006)

No. of installed payment terminals

Approx. 30,000
(As of Jun. 31, 2006)

Approx. 150,000
(Forecast)
(As of Mar. 31, 2007)
Uptake of push information delivery services ("i-channel" + "Tokudane-News-bin") has been growing at a rapid pace.

Boost usage through push information delivery service

- "i-channel" service’s revenue contribution:
  - Revenue per user: Approx. 400 yen/month
  - (FY2006/1Q (estimate))

- "i-channel" subscription rate: 46% (As of Jul. 31, 2006)

- Forecast: 5.41 mil
  - +1.72 mil
  - +1.45 mil
  - +1.15 mil

* "i-channel" subscription rate: No. of "i-channel" subscribers/Total users of compatible handsets
Create New Revenue Sources (3) International Services

- No. of roaming subscribers using their own handset has grown sharply after the release of "SIMPURE" and "902iS" models
- International service revenues posted favorable growth in FY2006/1Q (up 43% year-on-year)

User base of roaming-enabled handsets

International service revenues

% of own handset roamers:

- Int'l service revenues: +43% year-on-year
- Int'l dialing revenues
- Int'l roaming revenues: +68% year-on-year

* % of own handset roamers: No. of "World Wing" roaming users using own handset/ Total roaming users
Facilitate Cost Reduction (1) Distributor Commissions

Lower FOMA handset costs
- Single-chip CPUs, common platform, etc.
- Introduce foreign vendors’ handsets
- Utilize committed purchase volume

Optimize product mix
- Offer handset models tailored to different user segments
  High-end: 90X series
  Standard: 70X series
  Simple: "SIMPURE" series

Prolong replacement cycle
- Improve after-sales service to DoCoMo Premier Club members, e.g., free-of-charge battery packs, etc.
- Promote use of i-mode FeliCa

Streamline distribution channel
- Improve efficiency of logistics, review shop distribution, etc.
Facilitate Cost Reduction (2) Network

**Improve efficiency of access network**
- Reduce equipment costs
- Use more economical equipment
  (Diversify lineup of base station equipment)
- Reduce engineering entrustment costs

**Improve efficiency of core network**
- Convert network into IP-based
- Integrate network equipment
- Expand capacity of network equipment
Introduction Details

- **Date of introduction**: Oct. 24, 2006
- Applicable to cellular phone service only
  (PHS, satellite telephone and data communications services, etc., are out of the scope of MNP)

- **Notes**:
  - Mail address, discount services, and handset hardware cannot be transferred
  - Content, electronic money values, etc., in some cases may not be transferred
  - Extra costs for contract cancellation may be required, if user has entered into an annual discount contract with current carrier.

Significance to Carriers

- MNP is not a one-time event, but will continue to be in force
- Possible increase in subscriber liquidity

Need to improve comprehensive attractiveness

*Consolidated financial statements in this document are unaudited.

*Adjusted free cash flows exclude the effects of irregular factors and changes in investments for cash management purposes.
- Irregular factors represent the effects of uncollected revenues due to bank holidays at the end of the fiscal year.
- Changes in investment for cash management purposes were derived from purchases, redemption at maturity and disposals of financial instruments held for cash management purposes with original maturities of longer than three months.

*For an explanation of the calculation process of these numbers, see the reconciliations to the most directly comparable financial measures calculated and presented in accordance with GAAP on Slide 37 and the IR page of our web site, www.nttdocomo.co.jp.
Operating Revenues

**FY2006 1Q**

Operating revenues

- compared to FY2005

+2.7%

(Cellular services revenues)

Compared to FY2005 +3.5%

(Equipment sales revenues)

Compared to FY2005 -2.9%

*Other includes purchase of additional handsets by existing FOMA subscribers.

- Communication Module Service subscribers are included in the no. of cellular subscribers to align the calculation method of subscribers with other cellular phone carriers. (Market share, the no. of handsets sold and churn rate are calculated inclusive of Communication Module Service subscribers).
- For an explanation of MOU and ARPU, see Slide 36 of this document, "Definition and Calculation Method of MOU and ARPU."
Middle-Term Business Directions

- Facilitate business structural reform, to transform cellular into a "lifestyle infrastructure" through the synergies of core and new businesses
- Deliver "cellular services useful for everyday life and business" to offer innovative & secure solutions

From "telecommunications infrastructure" to "lifestyle infrastructure"

Deliver "lifestyle cellular services" through the synergies of core & new businesses

Innovative
- FeliCa services
  - Payment, mobile credit
  - Commuter pass (Mobile Suica)
- New communication services
  - PushTalk
  - i-channel
- Music services
- Broadcast-linked
- Video distribution/Videophone
- Corporate services
- International services
- Fuel cell

Safe & Secure
- Children safety protection
  - Kid's PHONEx
  - Imacoo search
- Personal data protection
  - Remote lock
  - Data security
- Disaster communications
  - i-mode disaster message board
- NW quality enhancement
- Handset troubleshooting
  - Over-the-air download
- Spam countermeasures
- Premier Club
  - Free handset repair
  - Free extra battery pack service
Create New Revenue Sources

Accelerate cellular service’s transformation into a “lifestyle infrastructure” leveraging the synergies of core and new businesses
⇒ Achieve “third growth” after first and second phases of growth led by telecommunications/IT infrastructure businesses

(1) Payment/Commerce
- Sumitomo Mitsui Card
- UC Card
- am/pm
- Lawson
- AEON*
- FamilyMart*
- East Japan Railway (LLP)

(2) Broadcast
- Fuji television
- Nippon television (LLP)

(3) Content / Internet business
- Rakuten Auction
- CA Mobile
- Tower Records

(4) Global business
- KT Freetel
- Guam Cellular
- Guam Wireless
- PLDT
- Asia Pacific Mobile Alliance (tentative name)

(5) Mobile-related peripheral business
- ACCESS
- Aplix
- Renesas Technology*
- Texas Instruments*
- FueTrek

* non-invested alliance
DoCoMo is engaged in brand business (iD) and issuer business (DCMX and DCMX mini)

Domains of DoCoMo’s Credit Business

**Brand business**
- Define rules
- Provide a platform

**Issuer business**
- Credit card issuance

**Acquirer business**
- Merchant acquisition

**Services provided by DoCoMo**
- A new credit brand established by DoCoMo
- Provides an open payment platform
- Credit lines from ¥200,000/month
- Int’l brand cards are also issued
- Revolving payment/cashing
- Easy-to-use mobile credit service
- Simple application directly from handset
- Instant credit line up to ¥10,000/month
- Merchants to be acquired by business partners (e.g., Sumitomo Mitsui Card, etc.)
Enriched International Services

- Added variety of GSM/FOMA dual-mode handsets
  (As of Aug. 31, 2006)
  - GSM roaming-enabled: 5 models
    (N9001G, M1000, NW8501G, SIMPURE series)
  - 3G roaming-enabled: 2 models
    (P9021S, N9021S)

- Increased rental counters/Easy-to-use billing plans
  - Nationwide DoCoMo Shops
    / DoCoMo World Counter Hawaii
  - Discounted "WORLDCALL" charges, etc.

- Expanded roaming destinations
  - Voice roaming: 142 countries/regions
  - i-mode roaming: 81 countries/regions
  (As of Aug. 31, 2006)

- Established Asia Pacific Mobile Alliance
  (Tentative name)
  - To collaborate in the fields of international roaming
    and corporate services

---

DoCoMo’s Investees or Members of Asia Pacific Mobile Alliance

- Korea: KTF
- Japan: Do Co Mo
- India: Hutch
- Singapore: StarHub
- Indonesia: indosat
- Philippines: PLDT, SMART
- Hong Kong, Macau: Hutchison telecom
- Taiwan: TELCORP
- Guam: GuamCell
- Guam Wireless

: DoCoMo’s investee or members of Asia Pacific Mobile Alliance
Enriched FOMA Handset Lineup

Plan to offer a wide array of handsets tailored to diverse user needs

FY2006 First Half

- 902iS
- N902iX
- 702iS
- SO902iWP (waterproof)

FY2006 Second Half and Beyond

- 903i
- M702iG
- M702iS
- 703i
- BlackBerry
- SIMPURE
- HTC
- Niche Models (HSDPA / Terrestrial digital TV-enabled model / Universal design etc)

Breakdown of FOMA Handsets Sold

- 70X series
- 90X series

FY2005/1Q
FY2006/1Q

- Add more international roaming-enabled phones (M702iG/M702iS)
- Mobile information device for corporate users (HTC/BlackBerry)
- Enrich lineup of foreign vendors handsets (LG, Nokia) (to lower procurement costs)
- Enrich variety of terrestrial digital broadcast-enabled models
Planned Network Evolution

Evolve mobile phone service by upgrading network capabilities

- Boost competitiveness by further enriching service portfolio, and offering richer content and more attractive handsets
- Cost reduction and more efficient use of radio resources by improving the efficiency of radio network

Downlink transmission speeds (bps)

Principal characteristics of Super 3G
- Peak speed: 50 Mbps (uplink), 100 Mbps (downlink)
- Development to be completed in 2009 (planned)

Advancement of cellular phone technology

New radio system

4G

WCDMA: Wideband Code Division Multiple Access
HSDPA: High Speed Downlink Packet Access
HSUPA: High Speed Uplink Packet Access
S3G: Super 3G
[Cautions relating to use of MNP ]

- If customers switch carriers using the MNP system, the existing contract with the current carrier will be canceled. Customers are required to be aware of the following conditions resulting from the cancellation of the existing contract.

1. Mail address/handset hardware cannot be transferred.
2. Current billing plans/discount services, etc., will be terminated upon the cancellation of contract.
3. Content/electronic money, etc., provided by third-party content providers may not be transferred.
4. Extra charges may be incurred in relation to the cancellation of contract, if user has entered into certain discount contract with existing carrier, e.g., annual discounts, etc.
**Return to Shareholders**

Returning profits to shareholders is considered one of the most important issues in our corporate agenda.

No. of canceled treasury shares
- 1.48 mil shares
- 1.89 mil shares

**FY ending Mar. 31, 2007**

Dividend per share: 4,000 yen
(Maintain a level comparable to the dividend for FY ended Mar. 31, 2006, when it was doubled from the previous fiscal year)

Repurchase of own shares: Authorized to repurchase up to 1.4 million shares for up to 250 billion yen at 15th ordinary meeting of shareholders in Jun. 2006.
Definition and Calculation Methods of MOU and ARPU

- **MOU (Minutes of usage)**: Average communication time per one month per one user.
- **ARPU (Average monthly Revenue Per Unit)**:

  Average monthly revenue per unit, or ARPU, is used to measure average monthly operating revenues attributable to designated services on a per user basis. ARPU is calculated by dividing various revenue items included in operating revenues from our wireless services, such as monthly charges, voice transmission charges and packet transmission charges, from designated services which are incurred consistently each month, by number of active subscribers to the relevant services. Accordingly, the calculation of ARPU excludes revenues that are not representative of monthly average usage such as activation fees. We believe that our ARPU figures provide useful information to analyze the average usage of our subscribers and the impacts of changes in our billing arrangements. The revenue items included in the numerators of our ARPU figures are based on our U.S. GAAP results of operations. This definition applies to all ARPU figures hereinafter.

- **Aggregate ARPU (FOMA+mova)**: Voice ARPU (FOMA+mova) + Packet ARPU (FOMA+mova)
  - **Voice ARPU (FOMA+mova)**: Voice ARPU (FOMA+mova) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (FOMA+mova)
  - **Packet ARPU (FOMA+mova)**: Packet ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) + i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA+mova)
  - **i-mode ARPU (FOMA+mova)**: i-mode ARPU (FOMA+mova) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA+mova)

- **Aggregate ARPU (FOMA)**: Voice ARPU (FOMA) + Packet ARPU (FOMA)
  - **Voice ARPU (FOMA)**: Voice ARPU (FOMA) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (FOMA)
  - **Packet ARPU (FOMA)**: Packet ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA)
  - **i-mode ARPU (FOMA)**: i-mode ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA)

- **Aggregate ARPU (mova)**: Voice ARPU (mova) + i-mode ARPU (mova)
  - **Voice ARPU (mova)**: Voice ARPU (mova) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (mova)
  - **i-mode ARPU (mova)**: i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (mova)

- **Number of active subscribers used in ARPU and MOU calculations are as follows:**
  - Quarterly data: sum of "No. of active subscribers in each month" of the current quarter
  - Half-year data: sum of "No. of active subscribers in each month" of the current half
  - Full-year data: sum of "No. f active subscribers in each month" of the current fiscal year

  "No. of active subscribers in each month": (No. of subs at end of previous month + No. of subs at end of current month)/2

※The revenues and no. of subscribers of Communication Module Service are not included in the above calculation of ARPU and MOU.
Reconciliation of the Disclosed Non-GAAP Financial Measures to the Most Directly Comparable GAAP Financial Measures

1. EBITDA and EBITDA margin
